

Dräger FPS 7000 Full Face Mask

The Dräger FPS 7000 full face mask series is characterised by a high degree of safety and optimum wearing comfort. Thanks to its proven design and the different sizes, it offers a tight and comfortable fit. The combination of the mask shape with the geometry of the visor offers you a large field of vision.

Dräger FPS 7000

Large visor (180° angle)

Optimal view during a wide range of tasks. Made from Polycarbonate (optionally also with coating).

5-point head harness / adapter

Simple donning and doffing. Also available with S-fix/Q-fix adapter for use as mask-helmet-combination.

Comfortable and secure fit

Double sealing frame with threefold sealing edges. Secure protection and leak-tight fit for different face shapes by 3 mask body sizes.

Versatile connection

Offers compatibility and secure application with Rd40-filter, PAPR, SCBA or Airline Systems.

D-4980-2024

Accessories

Communication unit
FPS-COM 5000 / FPS-COM 7000.
Pressure indicator (HUD).
IMD and UCF FireCore.

Benefits

Wide field of vision

With the FPS 7000 full face mask, you can keep the overview even in difficult situations. A large field of vision provides you with a wide viewing angle thanks to the distortion-free polycarbonate visor. This is available with different coatings and does not fog up thanks to optimised air circulation.

Optimal fit

The ergonomic head strap and the double sealing frame with triple sealing edge ensure a secure and comfortable fit for a wide variety of face shapes. The head strap also allows the mask to be donned and doffed quickly and easily. In addition, the mask body is available in either skin-friendly EPDM or silicone for optimum protection in a variety of applications.

Mask-Helmet-Combination

For those who use mask-helmet-combinations the specially for FPS 7000 developed S-fix and Q-fix adapter offer a new level of safety. For example, when combining the Dräger HPS 7000 helmet with the full face mask, the optional available and patented Dräger Q-fix connection prevents the unintentional release of the attachment.

Modularity

The FPS 7000 is not only safe and comfortable to wear, but can also be flexibly customised to your requirements. Whether radio, voice amplifier or head-up display - everything can be optionally integrated into the full face mask: For example, the Dräger FPS-COM 5000 and Dräger FPS-COM 7000 communication systems adapt to the design and ergonomics of the full face mask. Different modules can be selected depending on the requirements - for optimum communication during use.

Another option is an integrated head-up display, which indicates you the pressure of your SCBA directly in the mask.

Dräger UCF FireCore and FPS In-Mask-Display

Better orientation and situational evaluation with the innovative helmet-mounted thermal imaging camera UCF FireCore. It consists of two separate components: A camera module, which is attached to the responder's helmet, and a display (FPS IMD = In-Mask-Display), which is integrated into the FPS 7000 full face mask. Both components are wirelessly connected to each other.

System integration

With the option to choose a mask with different front ports and wearing systems, as head harness or helmet adapters, it will optimally fit into your personal protective equipment, consisting of helmet, mask and respiratory protective device (self-contained breathing apparatus, closed-circuit breathing apparatus or respiratory protection filters).

Details

System Components

D-17019-2024

Dräger PSS AirBoss

The Dräger PSS AirBoss offers best in class ergonomics and is one of the lightest weight breathing apparatus for firefighting. Lessons learned from firefighters around the world as well as latest innovations in technology have led us to design an even safer and cleaner SCBA system that enables you to breathe more easily and for longer.

D-1552-2022

Dräger UCF FireCore

The Dräger UCF FireCore hands-free thermal imaging camera gives you a permanent vision of your immediate surroundings, even under the toughest conditions. That allows you to orientate yourself more quickly and safely, while also improving your situational awareness.

D-8700-2019

Dräger FPS-COM 5000

Because there is no time for misunderstandings in an emergency: The Dräger FPS-COM 5000 communication unit has been specifically developed for the full face mask Dräger FPS 7000 and ensures clear communication through a voice amplifier unit or radio device – even under extreme conditions.

D-9339-2014

Dräger C-C440

Control unit with large Push-to-Talk button for easy handling of the radio transmitter. Tough and robust design according to IP67 / MIL-STD-810G standards. Specially designed for deployments using chemical protective suits. ATEX versions available.

System Components

D-1361-2021

Dräger Quaestor 8000

All static and dynamic tests of the Dräger Quaestor 8000 are carried out fully automatically. Controlled by the proven Protector software, each test is carried out intuitively. For you, this guarantees high efficiency through comfort and speed.

D-2265-2024.tif

Dräger X-plore Rd40 Filters

Whether used in chemical industry or automobile industry, shipbuilding, metal processing industry or by public utility services – for decades Dräger respiratory protection filters have been a synonym for experience and safety worldwide. They clean breathable air from contaminants in a low-cost and effective manner.

D-2244-2022

Dräger HPS 7000

The multipurpose Dräger HPS 7000 firefighter's helmet is in a class of its own, thanks to its innovative, sporty and dynamic design, ergonomic fit and components which make it a multifunctional system solution. It provides optimum protection during every operation.

Accessories

ST-567-2002

Mabox II mask box

Instead of a mask bag, the Dräger full face masks can be stored or carried along in the Mabox II (small) mask box.

ST-414-2003

Protex mask bag

Instead of a carrying box, the Dräger full face masks can be stored in the “Protex” mask bag.

ST-9504-2006

Spectacle Kit for FPS 7000

For people who wear glasses, the Dräger FPS 7000 can easily be equipped with spectacle kits.

ST-9907-2006

Dräger FPS 7000 Head-Up-Display (HUD)

One of the many benefits of the FPS 7000 full face mask is the option of fitting a head up display. Always within the field of view the head up display allows easy monitoring of the cylinder contents without any manual action by the wearer.

Accessories

D-43054-2012

Welding Protection FPS 7000

The Welding Protection FPS 7000 provides the optimal solution for safe work when used in combination with a full face mask and suitable filters. It consists of the shield itself, as well as an adapter for established supplementary panels and welding protective filters, in accordance with DIN EN 166. Without the adapter, the shield is suitable for lenses with a 4.5" x 5.25" format.

ST-14936-2008

Adapter for Welding Protection

The adapter for Dräger Welding Protection allows the use of established supplementary panels and welding protective filters, in accordance with DIN EN 166.

D-44729-2015

DAISYquick cleaning cloths

Cleaning cloths to remove dirt easily.

D-5990-2018

"klar-pilot" gel

Anti-fogging agent which can additionally be applied to reduce possible fogging on the insider of the visor.

Related Products

D-4991-2024

Dräger FPS 7000 RP

The Dräger FPS 7000 RP full face mask is specifically designed for closed circuit breathing in mind. Setting a standard in terms of safety, the modern design offers you a large, optimized field of vision, while the availability of different sizes ensures the mask fits comfortably and securely. The integrated wiper and optional hydration system provide you with additional comfort during longer durations.

D-13629-2010

Dräger Panorama Nova

The Dräger Panorama Nova full face mask meets the highest standards of protection, sealing and quality. For decades proven worldwide, the full face mask represents absolute reliability in the protection of the respiratory tract and eyes.

Technical Data

Mask body	Skin-friendly and flexible silicone or EPDM (dermatologically tested)
Harness	5-point head harness with a large contact surface area at the back of the head, alternatively a hairnet
Mask-Helmet-Combination	2-point connection for Dräger HPS 7000 either with Dräger Q-fix (with safety button) or with Dräger S-fix (without safety button) connection
Size	Mask body in 3 sizes (S, M and L) compatible with inner mask in 3 different sizes
Visor	Polycarbonate visor available with different coatings
Connector	P, RA, ESA, PE
Weight	approx. 600 g (varies according to version)
Approval	EN 136 CL3+, EN 137 type 2, DIN 58610 (MHK), NIOSH (some versions)
